When the firemen arrived at the scene the fire was blazing flercely and the firemen were handicapped by the lack of water pressure and the mill pumps were of little use as the tide was low in the river. The fire had a stellar the loftlest of the Black Mountain and certainly the landscape hears. good start and the water that was and certainly the landscape bears out the tale. European dress has made

hose so it could be played on the burn-ing stock. The fire companies returned at 11 o'clock. The loss, including both building and paper stock, is estimated at over \$5,000. The cause of the fire is thought to have been spontaneous combustion, and it is said there was an explosion.

The shed was built about a year ago, being 100 feet by 200 feet, of galvanized iron construction on the outside, wood in the interior, with a concrete floor. The fire engine had a pressure of 180 pounds on, but only one stream from the hydrant could be used, for as oon as two streams were put on the hydrant was sucked dry.

The strainers on the lines that led to the mill pumps would only reac hthe water at high tide, so that these lines

ONE OF THE ODDEST COUNTRIES IN WORLD.

Montenegro So Described By Former Minister To That Country and

Waeshington, D. C., June 25—George Higgins Moses, former United States Minister to Greece and Montenegro, in communication to the Geographic Society at Washington D. , describes Montenegro as one of the oddest countries in the world. There, the women are the producers, clothes make the man, the king is greater than the ministry, the chamber or the constitution, and a man may be imprisoned for eating hedgehog. A man who is struck may kill the striker, provided it be done at once; if he de-lays, he is punished as a murderer. The writer paints King Nicholas in glowing colors.
